## Pharmacy Services

Fresenius Health Partner's Pharmacy Department coordinates and manages the Medicare Part D Program for Fresenius' Medicare Part D beneficiaries by providing appropriate and cost-effective drug therapy. The department supports contracted providers in order to continually improve the quality and cost effectiveness of pharmacy services and to support effective and efficient administration of covered pharmacy benefits. The department additionally manages the transition and formulary selection process through the oversight and direction of the Fresenius Pharmacy and Therapeutics (P&T) Committee. The Fresenius Pharmacy Department provides oversight of the Fresenius Pharmacy Benefit Manager (PBM) who provides pharmacy benefit management services to Fresenius.

Fresenius has contracts with pharmacies that equal or exceed CMS requirements for pharmacy access in the service plan area. We offer a large network of pharmacies to serve you. Fresenius has more than 64,000 pharmacies that are contracted with CVS Caremark on our behalf. With few exceptions, you must use network pharmacies to get your prescription drugs covered.

*A Coordinated Care plan with a Medicare Advantage contract  
and a Medicare-approved Part D sponsor.*
